

Rampant Chess
Over 60 Great Games by Scottish Masters
by Geoff Chandler & Keith Ruxton
Algebraic Notation

Foreword by GM Jonathan Rowson

Thirteen Scottish Masters have each selected five of their most entertaining and important games for inclusion in this book.

The authors have annotated the selected games in a highly original and humorous style.

While the main aim is to entertain, there is no denying the instructional value of this book. Both authors believe that education and enjoyment need not be mutually exclusive and that the best way to learn is while having fun.
